Failure to properly sign the Protest Form shall deem the Protest Form incomplete and a nullity, and in such event, the Protest will not be considered. Any Protest must be submitted (and received by the Agribusiness Department) at least two (2) hours prior to the time that the show is scheduled to occur in order to be considered prior to the show. In any event, a Protest must be filed with the Agribusiness Department prior to the scheduled release hour for the protested exhibitor’s animal in order to be considered.  
2. The Agribusiness Department will forward any Protest Form which is duly signed (by an exhibitor as the protesting exhibitor, and if the exhibitor is a minor, the Protest Form must also be signed by the exhibitor’s guardian or parent), and any accompanying materials submitted by the protesting exhibitor in support of the Protest to the Committee for its consideration. The Agribusiness Department will also notify the exhibitor being protested of the Protest as soon as reasonably practicable after the Protest has been duly submitted, and make available a copy of the written Protest to the exhibitor being protested. The exhibitor being protested may, but shall not be required to, provide a written response to the Protest (a “Response”) by submitting a Response to the Agribusiness Department, including any materials in support of the response to the Protest, and the Agribusiness Department shall provide the Response to Committee. ULTRASOUND GRADE AND YIELD CONTEST

The Florida State Fair reserves the right to base contest on Ultra sound results.

The Florida State Fair reserves the right to base contest on Ultra sound results.

The 63rd Annual Ultra Sound Grade and Yield Contest will be held in conjunction with the Florida State Fair. We feel that this contest, emphasizing the end product of the beef industry, and provides a valuable educational complement to the Florida State Fair Youth Steer Futurity held during the Fair. At weigh in for the show, all steers will be ultrasounded by a certified technician and the images interpreted for ribeye area, fat thickness and marbling score. Assuming that the dressing percentage of show steers is 62% and the kidney, pelvic and heart fat is 2.5% of the hot carcass weight, the ultrasound images will be used to determine the quality and yield grades of each carcass. Following the images interpretation, a comprehensive report is prepared. Among the major topic headings are: Maturity Groups, Degree of Marbling, USDA Carcass Grade, Hot Carcass Weight, Rib Eye Area, Fat over Eye, Percentage of Kidney and Pelvic Fat, and USDA Yield Grade.

1. Eligibility - All steers in the Florida State Fair - Youth Steer Show are eligible for competition in the Florida State Fair Ultra Sound Grade and Yield Contest.
2. Premiums - All premium monies in the Contest will be paid to the exhibitor of the steer.
3. Judging - The relative industry value of quality grade, yield grade and weight will be used to determine placing. The relative value will be based on the USDA Premiums and Discounts chart published the week of the show.

IAFE (INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS) NATIONAL CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.

2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.

3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.

4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for showing management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.

6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.

7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.

8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics.

Violation of this rule shall subject such individual to disciplinary action.

9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.

10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.

11. The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

3. Preparing to Video Demonstration/Illustrated Talk
   a. Equipment
      - Video Camera, Camera with video ability
      - Microphone
      - Tripod
      - Lights
   b. Person to shoot the video
   c. Set –up of your video location
      - Small room – normal 8’ ceiling height
      - Place your demo table in front of a blank wall
      - Place an easel/screen to one side
      - Make sure the light source is to the camera’s back
   d. Filming
      - Film at time without distracting noise, traffic, phone ringing, etc
      - Make sure your outfit is official show attire (required) and that it does not bleed into the wall color.
      - Straight shots: Introduction – middle and ending
      - Overhead shots: Specific “how-to” in the middle
      - -film overhead shots separately and edit into the main video
      - -move the tripod to table and turn the camera looking down on the table; here you can shoot your hands putting items together and get a better video of what you are doing.
   e. Audio
      - A good video has an excellent audio. Types of microphones are lavaliere (clip-on), hand-held and shotgun (very long and attach to camera- very sensitive). Many cameras have audio, check if an external microphone such as a lavaliere can be used. Test your internal microphone before filming. If you can use an external microphone, a lavaliere microphone is suggested. It allows for movement as you demonstrate.
e. Lighting
Test the lighting in the room for a sample video shot. Will it wash out the speaker or cast shadows? Secure external lighting to highlight the speaker and table. The lighting should be parallel to the camera towards the film area.

4. Lights – Camera – ACTION
a. Practice first before shooting
b. After a few practice runs, now shoot a sample
c. Review the video
   Does it appear seamless?
   How is the lighting? Are there problem areas to fix?
   Is the audio clear and understandable?
   Check the timing – are you within the limits?
   Does the video flow well and easy to follow?
d. After fixing any parts of your demonstration, re-video
e. When you are satisfied with your video, make sure you save it with your
   Title, Name and County
